# Q3 FY2019 - Apr 1, 2019 to Dec 31, 2019 Presentation for IR Meeting 

## Tokuyama Corporation <br> Jan 31, 2020

## Key points of the third quarter of fiscal 2019

- Despite an uncertain outlook regarding demand in Japan mainly for semiconductors as well as raw material and fuel price trends, continue to focus on achieving full fiscal year plans.
- Maintained the profit margin on petroleum products with respect to raw material fuel prices as the impact of declining coal prices began to emerge in earnest and naphtha prices trended at a low level
- Despite initial signs of a positive turnaround in the semiconductor market, sales of semiconductor-related products to recover in earnest from the next fiscal year as a result of inventory adjustments by customers

## Lower earnings on lower sales

(Billions of yen) Qualitative information
(Caustic soda)

- Despite firm sales volume trends, its operating profit decreased due to the increase in raw material price coupled with a deterioration in overseas market conditions.
(Vinyl chloride resin)
- Operating profit increased on the back of efforts to maintain spread between selling prices and raw material price.
(Propylene oxide)
- Operating profit decreased owing to a drop in sales volume for use in urethane.
(Calcium chloride)
- Operating profit decreased. This largely reflected drop in sales volume due to less snow and an increase in logistics costs.

## 4. Changes in Net Sales / Operating Profit by Business Segment

## (Year-on-year change)

## Specialty Products Lower earnings on lower sales

(Billions of yen) Qualitative information

(Semiconductor-grade Polycrystalline silicon and Thermal management material)

- Operating profit decreased. This was due to decline in sales amount caused by the delayed recovery of semiconductor market.
(High-purity chemicals for electronics manufacturing)
- Its business result was almost same as the corresponding period of the previous year. This reflected the recovery of sales volume mainly for export.

Lower earnings on higher sales

(Billions of yen) Qualitative information

(Plastic lens-related materials)

- Sales volume of photochromic dye materials for eyeglass lenses increased.
(Dental materials)
- Despite an increase in sales volume overseas, its operating profit decreased mainly due to the increase in advertising expenses associated with the release of new products to the market.
(Medical diagnosis systems)
- Its operating profit increased This largely reflected firm sales volume of Clinical Testing devices and Systems.
(Ion exchange membranes)
- Its operating profit decreased due to large-scale project recorded in the corresponding period of the previous year.

## 1. Business Environment and Countermeasures

## Business Environment

Chemicals

Specialty Products

- While coal prices to trend at a low level, unstable trends in naphtha prices due to geopolitical risks in the Middle East
- Slight softening of demand for caustic soda in Japan
- Semiconductor-related product market expected to move away from a period of stagnation in line with steps taken toward 5G commercialization
- Growing customers' requirements for higher quality on the back of further developments in miniaturization
- Raw material costs including coal to trend at a low level
- While interest in urban redevelopment and other factors in the wake of the Tokyo 2020 Olympics are projected to underpin demand, expectations of an upswing in public works under the National Resilience and other plans going forward
- Growing consciousness toward health in line with such factors as the aging of society

## Countermeasures

- Maintain profit margins
- Maintain caustic soda selling prices in Japan, strengthen exports
- Reinforce the production and supply structures in preparation for the recovery in demand
- Deliver distinctive products by meeting calls for higher quality
- Revise selling prices
- Pursue the thoroughgoing reduction of manufacturing costs
- Strengthen cement exports
- Strengthen efforts to expand into the health care field focusing on research and development
- Improve profitability in non-health care business fields
