# The Value Creation Process at Tokuyama

In pursuing the Tokuyama Group's mission of creating value that benefits people's lives through chemistry, we practice CSR in management, based on management resources amassed over a century in business, and conduct our business activities with consideration for environmental, social, and governance performance. You can count on the Tokuyama Group to do its part in building a sustainable world by leveraging its core technologies to supply products that help solve social issues.

### How Tokuyama's Business Addresses the SDGs

The Tokuyama Group is committed to contributing to the achievement of the Sustainable Development Goals (SDGs) adopted by the United Nations General Assembly in September 2015. The Group verifies that its products and business activities are in alignment with the SDGs in the conduct of its business. The Tokuyama Group will continue to pursue R&D with a view to contributing to the SDGs, seeking to be of value to society and remain the choice of customers.

Adopted by the United Nations, the SDGs address issues facing all of humanity. Meeting these goals by the target year of 2030 will require global-scale cooperation.

### **SDG-Oriented Products**

### **Customer-oriented R&D and** business activities

### **Environment & Energy**

- Liquid hydrogen
- ▶ Recycling of industrial waste
- ▶Utilization of waste plastic for fuel
- ▶PVC window

### **ICT**

- ▶Thermal management materials
- ► High-purity chemicals for electronics manufacturing

### Healthcare

- ▶Bulk pharmaceutical ingredients
- ►Microporous film
- Dental materials
- ► Medical diagnosis systems

**Creating Value That Benefits People's Lives through Chemistry** 

### Creating a low-carbon, recycling oriented society

Tokuyama helps to build a more sustainable society by recycling waste plastics, sludge, and other refuse, and by reusing co-products generated by manufacturing processes.

# **Supporting innovation**

By enabling higher performance and efficiency in consumer electronic and energy products, Tokuyama helps to make society more convenient and prosperous.

## Contributing to health and longevity

Tokuyama provides products for pleasant and healthy living. Especially notable are bulk pharmaceuticals for generic drugs, and plastic lens materials produced with its unique organic synthesis technology.
